Zoom to Selection Horizontally	Alt + S

■ Special Modifier Keys

Controls:

- [Shift] + click and drag on controls uses fine tune
- [Ctrl] + click on controls switches to the default value

Arrangement / Editors

- Scrolling / Zooming:
  - Mouse wheel scrolls vertically
  - [Shift] + wheel scrolls horizontally
  - [Ctrl] + wheel zooms vertically
  - [Ctrl] + [Shift] + wheel zooms horizontally
- [Ctrl] in arrangement temporarily switches Tools:
  - Arrow tool to configurable alternate tool
  - Any tool to arrow tool
- [Ctrl] + click and drag on loop range moves loop range
- [Ctrl] while dragging velocities in editor sets all to the same value
- [Alt] + Paint in part automation editor draws line

Console + Track Controls

- [Alt] + Expand button in mixer expands channel exclusively
- [Alt] + click on Solo in channel or track control soloes exclusively; the same goes for Monitor and Record Arm
- [Shift] + click on Solo saves Solo on channel
- [Alt] + click and drag on mixer releases channel from Group
- [Ctrl] + click and drag on track control duplicates track;
- [Alt] instead of [Ctrl] additionally copies data

Events

- [Shift] after mouse-down disables snap when moving events
- [Alt] while dragging audio events or instrument parts creates copy
- [Ctrl] while dragging instrument part creates ghost copy
- [Alt] while resizing audio event stretches event
- [Alt] + [Ctrl] while resizing audio event sets clip-tempo
- [Ctrl] + [Alt] while dragging slips audio events

Want it Your Way?

Are you already familiar with another DAW or have your own way of doing things? Use the Key Command Editor found under "Options / General / Keyboard Shortcuts" to access pre-configured templates for Cubase, Sonar, Pro Tools, or Logic users. You can also change or create custom shortcuts for your convenience.
